Relias Solutions for ABA Providers

The Challenge

For Applied Behavior Analysis providers all over the country, ensuring staff are credentialed as Registered Behavior Technicians is becoming a crucial step toward meeting government requirements and ensuring proper reimbursement from insurance providers.

Behavior Analysts are experts in the field of behavior change, but running an ABA business can be an all-consuming endeavor. Frequently BCBAs don't have the necessary resources to fully train and prepare their Behavior Technicians for the RBT Competency Assessment and Exam from the Behavior Analyst Certification Board.

The Solution

The Relias Registered Behavior Technician Training Plan provides in-depth and engaging training that covers every requirement of the BACB's RBT Task List. From *Discrete Trial Instruction* to *Professionalism and Ethics,* the RBT Training Plan can prepare your new hires to be effective behavior interventionist.

Relias' courses ensure that staff retain what they learn through the use of interactive instructional design and real-world video examples. Training is available wherever your staff are through the Relias mobile app.

Plus, you can nurture the professional development of everyone on your staff with Relias. BACB has approved Relias as an online provider for both Supervision and Type 2 continuing education.

The Relias RBT Solution consists of:

- 40-hour RBT Training Plan

  Use our plan, with courses featuring real-world examples and advanced instructional design elements. Or customize the plan to meet your needs.

- RBT Requirements Checklist

  Ensure your new RBTs have completed every RBT requirement for certification.

- RBT Exam and Interview

  Prepare your Behavior Technicians with our practice exam, downloadable study resources, and competency assessment interview questions.

- Additional CE Courses for BCBAs

  Maintain your BCBA license with more than 40 continuing education credit units for Behavior Analysts.

Relias RBT Training Curriculum

This training program is based on the RBT Task List and is designed to meet the 40-hour training requirement for RBT certification. The program is offered independent of the BACB.
