

What Our Public Safety Clients Say About Our Training

“We had officers who needed 80 hours per biennium, and they were struggling because we don’t have the money to send them and pay for travel and hotel, and they were struggling to find free trainings to go to. Through Relias, they were assigned all the trainings they needed to complete. Relias’ benefits have been largely financial. As a department, we are saving over 50% of our training costs over previous years.”

RENEE MERTEN

Director at Atascosa County CSCD

“We have no regrets using Relias. We are able to blend the existing way that we have done business as a training function with new technological aspects to make the job easier for us and the end user.”

LT. KEITH KAISER

Director of Training, Lake County Sheriff’s Office, Illinois

“If you don’t keep a staff trained up and educated, you are not going to be able to provide the level of service to the clients, to the people. That’s really our ultimate goal. We’ve gotta be on our best game.”

DALE WILLETTS

Director of the NC TASC
