

# Know More, Get Better with help from the Relias Mobile App

## The Right Training. Anywhere, Anytime.

Is your training convenient and easily accessible? Can your staff complete courses directly from their mobile devices?

The Relias Mobile App is a “learn anywhere” resource that offers training flexibility and convenience. It includes access to courses, bite-sized refresher modules, science-based knowledge retention tools, and a place for staff to easily communicate.

## Mobile Learning is Here to Stay.

Gone are the days of sitting behind a computer at a desk to complete training—or much of anything. Your organization is moving at a faster pace, right along with your level of responsibilities. The Relias Mobile App combines convenience with technology to keep you on track.

## Key Benefits

Make Learning Convenient

Improve Clinical Decision-Making

Increase Productivity

Facilitate Communication

Improve Outcomes

## KEY APPLICATIONS

**Education:** Assigned courses can be accessed by your staff directly within the app. They can also receive course reminders, **BrainSparks®** and **Pro on the Go** modules.

**Point of Care Resource:** Staff can double-check knowledge at the point of care with fast access to **Pro on the Go** modules, most of which include video to better bridge the gap

between a training environment and an actual clinical setting.

**Communication:** The Relias Mobile App features both a public and organization-specific chat forum. This provides a convenient and efficient way for staff to share opinions and collaborate.

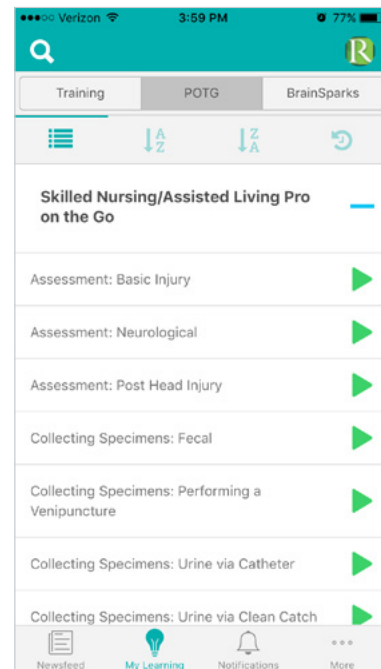

## Key Features

**My Learning:** This section contains three tabs: Training, [Pro on the Go](#) and [BrainSparks](#). In the Training tab, you can access courses assigned to you. The Pro on the Go tab includes modules you've enrolled in or have been assigned. The BrainSparks tab lets you view, access and complete any BrainSparks assigned to you.

**Notifications:** See notifications of new or upcoming training, Pro on the Go Modules or BrainSparks that have been assigned.

**Newsfeed:** See both public and organization-specific posts, depending on the tab you select. Within each tab, you can toggle between others based on the information you want to find.

**Search:** Search within the public or organization-specific tabs to find people, posts and tags. You can also see items trending within the search screen.

**The Relias Mobile App helps busy healthcare professionals access the right training, anytime and anywhere. It is free and available for Apple or Android devices. If you'd like more information on the Mobile App or how it can add value to your organization, reach out to one of our solutions experts.**

### About Relias

For more than 6,000 healthcare organizations and 3 million caregivers, Relias continues to help its clients deliver better clinical and financial outcomes by reducing variation in care. Our platform employs analytics and assessments to reveal specific gaps in clinical knowledge and addresses them with personalized, engaging learning.

We help healthcare organizations, their people, and those under their care, get better: get better at identifying issues, get better at addressing them, get better outcomes for all.
